

- **Sites** – The number of sites included in the audit must be representative of the overall company operations (see pg.45 **Criteria for Determining Representative Site Sampling**).
- Interview sampling is always based on **total employee numbers**, not the total number of employees working at the sites included within the current year's audit.

Interview subjects are randomly selected by the Auditor. This may be done in consultation with the employer. Also, the Auditor **must** demonstrate within the audit protocol or audit summary that the sample size used for the number of interviews is in compliance with the criteria as presented in this document.
